# PRODUCT DATA SHEET

### DIESEL FUEL TREATMENT

#### Summer Formula 462

Bishop's Original Formula 462 is a scientific break through in providing optimum power and performance from diesel fuel while adding additional protection. Formula 462's unique multi-functional formula lowers operating cost while cleaning and protecting the entire fuel system.

#### BENEFITS:

**Improves:** Fuel Economy and Power, Lubricity, Low Temperature Operations, Fuel Stability, Cold Starts.

**Reduces:** Injector Coking, Black Smoke Emission, Corrosion and Rust Formation, Combustion Noise.

**Also:** Provides Top End Protection, Emulsifies Water and will not alter fuel color.

#### DIRECTIONS FOR USE:

Add Formula 462 into fuel at the recommended ratio of;

32oz to 250 gallons

64oz to 500 gallons

1 gallon to 1000 gallons

#### SPECIFICATIONS:

Density @ 60°F, LB/GAL..... 7.62

Flash Point (PM)..... 155°F

Autoignition Temperature..... 842°F

Viscosity @ 40°C(104°F), cSt..... 40

Flammable Limits LEL: 0.6 UEL: 7.0 Typical for Hydrocarbons

**PACKAGING:** 32 oz - 6 per case

64 oz - 6 per case

1 gallon - 4 per case
