

COMMERCIAL/INDUSTRIAL

HEAVY DUTY POWER STEERING TREATMENT CONCENTRATE

Bishop's Original™ Power Steering Treatment is scientifically formulated to blend with all types of power steering fluids, providing unequaled performance and protection by bonding our unique solid, super tough micro-thin dry MFL® film to all lubricated metal surfaces. MFL® will improve the performance of all power steering systems, even those that have been impaired by heat, friction and wear and will prevent further deterioration.

BENEFITS:

Reduces friction; reduces metal wear; improves performance; provides metal surface protection

DIRECTIONS FOR USE:

Add Power Steering Treatment at anytime to regular power steering fluid. Maintain correct fluid level. (For Industrial or other applications, contact our customer service department). Use 1 oz of Product Code No. 4308 for autos/light trucks up to 1 quart of fluid capacity. Use 8 oz of Product Code No. 51899 for heavy duty trucks up to 5 quarts fluid capacity.

PACKAGING:

1 oz Automobiles/Light Trucks
8 oz Heavy Duty Trucks

Product Code No. 4308
Product Code No. 51899
