Mr. Jim Slater

I Own A Spray Plane with an Pratt-Whitnet 450 HP engine.

This engine used 2-3 quarts of oil per hour since the last Overhaul. It seems that the oil rings never seated properly.

Another crop-duster friend of mine told me about "Bishop,s oil treatment.

I was not sure that I wanted to try this product or not- but I finally decided to try it.

In june of 1995, I contacted Mr. Bishop at Houston, TX, and he put me in touch with you, as A Bishop Oil dealer-

I have been very pleased with the results---the oil consumption dropped by %50 and I could tell A definite increase in power.

We will continue to use this product from now on in our Aircraft Engines and also our trucks.

Thanks for the good service Jim and A great oil produt.

Gary Moore
