## MATRIX RESULTS

Jim, this is to let you know how pleased we are with the performance of our 1980 Buick Riviera since we added this product about 1500 miles ago.

Our car would never start and idle smoothly after standing overnight until we used this product. Now it catches on the initial try and runs smoothly.

We recently returned from a trip to Kentucky and Tennessee, and for the first time since we've owned the car, we got more than 20 miles per gallon. One of the readings was 21.7 and on the last stretch back from Indianapolis, we averaged 20.4.

Those milage figures might not seem impressive until we remind you that the car never produced more than about 18.5 previously.

Thanks for the good advice!

Sincerely,

Owner
