Dear Cecil;

We have been using your engine treatment for approximately five weeks. We have found it has increased our mileage in excess of nine percent.

At present we are using four trucks with 350 Cummings engines, an average of 75,000 miles per unit per year. This would be a savings of about 1400 gallons of fuel per unit. At fifty-one cents per gallon we would save over 700 dollars per year in fuel cost alone.

We feel that the fuel savings alone will be a very good return on our investment in your product.

Sincerely,

Maintenance Supervisor
